ATTENDANCE & ACADEMIC PERFORMANCE

FOR COLLEGE STUDENTS

from **Webee IT Services Pvt. Ltd.**

What it is?

- It is an [automated safety restraint system](#) for students in college main entrance and classroom gates using electronic ID Cards.
- The system tracks individual identity (who-when-where), sends [instant SMS to predetermined mobile numbers](#), reports non-presence, reports attendance and keeps the data for retrieval as customized reports.

How this system is helpful ?

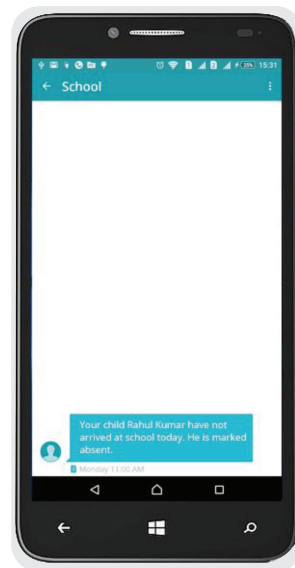

- Tracking System: The system [tracks the college students](#) who are not attending the classes.
 - If the parents or the college authorities are informed through this system on [untoward absence of the children not reporting classes](#) or [not returning home on scheduled time](#) after college hours, we could have stopped such circumstances.
 - The [Automated Attendance system](#) sends an [instant SMS](#) to the parents/guardian that the [student has reached college](#).
 - [Monthly / Yearly Attendance Report](#) can be retrieved from archived data in a single click of the button.
- 

How this system works?

- When the student **swipes his or her identity card** on the device at the college entrance, the device reads the data on the card and **stores the details of the card** inside its internal memory and **sends an SMS** instantly to the guardian's or parent's registered mobile number. In case of swiping the card on the device in the classroom, the device **only reads the data on the card and stores the details inside its internal memory**.
- The device can also be used to generate readily usable attendance data for students, teachers or any other staff.

Benefits of this system

- **Instant SMS** to the parents on the safe arrival of their children to the college.
- Non Reporting to college are immediately **reported to the parents** and to the college authorities.
- **Freedom from anxiety** and **mental peace** for the parents.
- It can **add value to the college's image** by showing the parents that you care for their child's attendance and future. The system will also track if any of the children do have less attendance percent and inform the parents accordingly via automatic SMS. The system can also send the obtained marks to the parents.

Abstract blue geometric shapes, including parallelograms and triangles, overlapping and creating a dynamic, modern background for the top half of the page.

What Else?

- [Attendance Report](#) for Internal Audit.
 - It can calculate the percentage of attendance for each student.
 - It can calculate the percentage of attendance per subject.
 - Percentage of students attending each faculty classes.
 - Comparing the marks obtained with attendance.
 - Late Arrivals, Late Departures, Early Departures, Non Arrivals (Absence), Non Departures are [tracked individually and reported](#).
 - System can be programmed to [handle multiple shifts](#) in colleges / universities running multiple shifts.
- 
- Abstract blue geometric shapes, including parallelograms and triangles, overlapping and creating a dynamic, modern background for the bottom half of the page.

Payment Mode

- **One-time user registration charges** will be applicable for each user (Includes ID card, ID registration, and user license)
 - There is a **nominal monthly charges** for each student which Includes usage, maintenance, and four SMS per day
 - For loss of device or ID cards, replacement charges will be levied.
